Professional Summary

Experienced Frontend Developer with expertise in building responsive, cross-browser user interfaces using TypeScript, React, Next.js, and Angular. I deliver pixel-perfect layouts based on Figma designs and develop efficient client-side logic with backend integration via REST APIs and WebSockets. I also have hands-on experience with Web3 technologies, including ethers.js and viem. I write clean, maintainable, and scalable code, always focusing on UX and delivering business value.

Technical Skills

Frontend: JavaScript (ES6+), TypeScript, React, Next.js, Angular, React Native, HTML5, CSS3 (SCSS, Tailwind, MUI, Shadcn/UI)

State Management: Redux, Redux Toolkit, Zustand

Testing & Code Quality: Jest, React Testing Library, Storybook, ESLint, StyleLint

Backend & Databases: Node.js, Express, NestJS, REST API, WebSocket, MySQL, MongoDB, Firebase, Prisma

Blockchain & Web3: viem, ethers.js, Privy.io

Data Visualization: Recharts, Chart.js, TradingView Lightweight Charts

DevOps & CI/CD: Docker, Webpack, Git, GitHub, GitLab

Collaboration Tools: Jira, Trello, Asana, Agile/Scrum

Experience

HouseHub

Remote

Frontend Developer

June 2024 – Present

- Developing and maintaining responsive UI components using TypeScript and Next.js for a Property Management System that automates bookings, pricing, and financial reporting.
- Delivered key features and fixed bugs, significantly improving system stability.
- Utilized Next.js server-side rendering (SSR) for fast page loading and improved SEO.
- Followed SOLID, KISS, and DRY principles to write clean and maintainable code.

O1 (Blockchain Project)

Remote

Frontend Developer

Feb 2025 – May 2025

- Redesigned the project interface with React, Tailwind CSS, and shadcn/UI, delivering pixel-perfect layouts.
- Built order management logic, real-time order book, trading widget, and candlestick chart.
- Integrated REST API and WebSocket for real-time data exchange.
- Implemented wallet connections via privy.io and blockchain interaction using viem.
- Developed custom charts using Recharts and TradingView Lightweight Charts.

Nikel Studio

Remote

Frontend Developer (React Native)

Jan 2024 – Nov 2024

- Developed a mobile application with React Native using Expo.
- Achieved pixel-perfect layout from Figma designs with responsive UI.
- Optimized UI and build process, significantly improving rendering speed and overall application responsiveness.
- Outcome: 50,000+ installs, 4.78 rating, 90+ minutes average session time.

Digital Democracy (Startup)

Remote

Frontend Developer

Oct 2023 – Apr 2024

- Built a responsive UI for a civic engagement platform using React, TypeScript, and SCSS, based on Figma layouts.
- Implemented data visualization with Chart.js, enhancing user comprehension of analytics.
- Integrated Google Analytics and Facebook Pixel for behavioral insights and conversion tracking.

Education

Moscow Automobile and Road Construction State Technical University (MADI)

Moscow

Bachelor's Degree in Transport Organization and Management

Sep 2012 – Jun 2016

Courses

Tel-Ran International Tech School

online

Frontend Developer

08/2022 – 05/2023

Languages

English – B2, German – B2
